Education

Aditya College of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering | Surampalem

CGPA: 8.04

Expected March 2026

Aditya Junior College

Intermediate in MPC | Amalapuram

Percentage: 89.8%

September 2022

Technical Skills

- **Programming Languages:** C++, Java, Python, C.
- **Web Development:** HTML, CSS, JavaScript, Bootstrap.
- **Skills:** Data Structures and Algorithms, OOP, Computer Networks, REST API Development & Integration.
- **Databases:** SQL.
- **Version Control:** Git, Github.
- **Tools:** VS Code, Jupyter, Eclipse.
- **Frameworks/Libraries:** Spring Boot, Numpy, Pandas.

Experience

Coding Intern - Technical Hub Pvt Ltd

July 2025 – Present

- Assisting in training **500+** students in **Java**, **C++**, **Advanced Data Structures**, and **C**, delivering interactive sessions to strengthen problem-solving and coding proficiency.

Python Teaching Assistant - Technical Hub Pvt Ltd

July 2024 – Nov 2024

- Mentored **250+** students in **Python**, enhancing coding proficiency through structured **problem solving** sessions. Conducted **debugging** sessions to help students to reduce errors efficiently.

Achievements

- **Typing Test Winner**- Awarded for outstanding performance in a typing test conducted by Technical Hub during 2nd year of BTech.
- Earned **5-star** badges in C++, Python, SQL, Problem Solving, 30 days of code, **4-star** badge in C in [HackerRank](#).
- Tackled **450+** problems in [LeetCode](#), **250+** problems in [GeeksForGeeks](#) and **150+** problems in [CodeChef](#).

Certifications

- [HTML and CSS Certification](#), [Python Certification](#), [Java Certification](#) from Pearson IT Specialist
- [Advanced Programming in C++](#), [Programming Essentials in C](#) from Cisco

Projects

- **Employee Management System** | Tech: HTML, CSS, JS, Spring Boot, SQL
 - Developed a full-stack Employee Management System with Spring Boot, MySQL, HTML, CSS, and JavaScript, implementing RESTful APIs for CRUD operations and ensuring a responsive UI.
- **Weather Application** | Tech: HTML, CSS, JavaScript [View Demo](#)
 - Built a real-time weather application using **OpenWeatherMap** API and JavaScript to display **dynamic** weather data. Implemented **error handling**, improved user reliability.
- **Password Manager** | Tech: C++
 - Built a C++ Password Manager with registration, login, CRUD, and encrypted file storage using XOR encryption, plus password strength validation with file handling.
